Biswanath Mahapatra

OBJECTIVE

To begin my career as an AI Engineer where I can apply my knowledge of Python, machine learning, and data analysis to build intelligent, scalable solutions while continuously learning and growing in GenAI and ML technologies.

ADDRESS

Bhubaneswar, Odisha, India

CERTIFICATIONS

- AI Fundamentals | IBM SkillsBuild
- Data Analytics Essentials | Cisco Networking Academy
- Social Networks | NPTEL
- Python for Data Analysis | Self-paced / Academic Projects

EXPERIENCE

AUG 2024 – PRESENT
Analysis & Development (Part-Time) | Independent Project / Contract Work
Performed data analysis and development tasks using Python and Excel to generate insights. Created charts and reports to support data-driven decision-making.

JAN 2024 – JUL 2024
Test Engineer Intern | PCON Utilities Pvt. Ltd., Bhubaneswar
Monitored SAP S/4HANA and SAP Fiori systems for performance and data issues. Analyzed logs and metrics to support system optimization and issue resolution.

EDUCATION

Bachelor of Technology in Computer Science
Silicon Institute of Technology, Bhubaneswar
Nov 2020 – Jun 2024 | CGPA: 8.12 / 10

PROJECTS

Customer Segmentation Analysis
Performed RFM-based customer segmentation and clustering using Python and SQL. Delivered actionable insights through structured analysis and dashboards.

Retail Sales Prediction
Built regression models with feature engineering and achieved 87% accuracy using Random Forest and Gradient Boosting.

Customer Churn Analysis (BCG Data Science Simulation)
Identified churn drivers and built a Random Forest model with 85% accuracy.

TECHNICAL SKILLS

Programming: Java, Python, SQL

Machine Learning: Regression, Classification, Clustering, Random Forest, Gradient Boosting

Libraries: Pandas, NumPy, Scikit-learn, Matplotlib

NLP: Text preprocessing, TF-IDF (foundational)

Tools: Jupyter Notebook, GitHub, Excel

Cloud (Basic): Azure Databricks, Azure Data Lake, PySpark
